

ENP 15 PD Portable Compactor

The ENP 15 PD portable compactor is constructed with a paddle action blade that retracts above the waste loading chamber, thereby enabling both a large loading aperture and low loading height. It is provided with a full height rear door seal as standard and has an enclosed hopper to improve hygiene and reduce odours.

Standard features include a wear resistant steel floor, integral hydraulic power pack with three built in levels of protection, key switch operation, emergency stop, cycle selector, auto pin off switch, auto shut off, and ¾ full and full warning lights.

Technical Specifications

Container Capacity	10.26m ³
Charge box Volume	1.14m ³
Cycle Time	26 seconds
Compaction Force	24 tonne
Operation Pressure	2000 pso
Loading Height	800mm
Aperture Height	920mm
Aperture Width	1310mm
Overall Length	4260mm
Overall Width	2000mm
Overall Height	2170mm
Motor Rating	5.5kw
Power Supply (415v, 3 phase + e + n)	32A M50 (or type D)
Weight	2,500kg

Machines are supplied with up to 6m of 5 core, 4mm braided flexible control cable complete with 5-pin mobile socket.
